**COURSE DURATION**

Half Day (4 hours).

PARTICIPANTS

Min 15 Max 20.

DESIGNED FOR

All individuals regardless of employment status, together with members of emergency response teams, health and safety team members, fire wardens and any other employee up to a supervisory level who may be required to assist in the event of an incident.

PRE-REQUISITES

None

ASSESSMENT

Participants will demonstrate knowledge of the elements of competency during class based training and exercises, including the use of a fire extinguisher.

Confirmation of their underpinning knowledge is also gathered through demonstrating skills during site-based exercises and drills.

CERTIFICATION

Upon successful completion of the course, participants will be issued with a **CAM FIRESAFE** certificate.

QUALITY ASSURANCE

This course is designed using international best practice principles, which are in line with those used in countries such as Australia.

DELIVERY METHOD

Classroom based and practical training consisting of presentations, case studies and training focusing on basic fire safety principles.

The course is delivered by suitably experienced and qualified trainers, who have years of hands on experience in their field.
